ABOUT US

Kavuta Contractors Ltd is an accomplished construction company (Class 3 - Building & Class 5 Civil) offering a wide range of services. We offer complete design-build experience and work regularly with many design, architecture and engineering firms as consultants. Our network of construction professionals rises to the challenges associated with a diverse buildings portfolio, bringing added value to every commercial, institutional, educational, and residential project. Kavuta Contractors Ltd excels at smaller unique projects such as renovations, restorations, and repairs just as it is a popular household name amongst larger projects such as skyscrapers, schools and universities.

We provide start to finish advice and expertise to enhance and complete any project. We work to develop specific project requirements and we have a proven track record of completing quality projects on time and on budget.

Our office staff includes highly trained and experienced business, engineering and technical experts who provide oversight and support for each project. This team concept is the basis for our hands-on, proactive approach which helps us produce the most important result of every job, our client's satisfaction.

During pre-construction, we offer the benefit of having a team member to provide leadership, advice, knowledge and coordination. Our personal attention and proven team approach will ensure the successful completion of any project.

Our commitment to providing quality services that are timely delivered is supported by a foundation of diligence, teamwork, workplace safety and modern technology.

DELIVERY METHODS

Project delivery methods vary and can be uniquely tailored to the planning, design and construction process of capital projects. Kavuta Contractors Ltd has been developing and managing project delivery approaches that best suit our clients while considering the current trends to offer the best results that they can connect with.

Each project has its own set of unique needs, requiring a custom approach to construction. We will help you to select the right

project delivery method from the many options available. The project type, scale, budget, complexity, available resources and appetite for risk are some of the needs that will surely come to mind while selecting the best delivery method. We normally integrate people, systems and practices to harness the contributions of all participants to reduce waste and optimize efficiency. Once this project framework is in place, Kavuta Contractors Ltd will customize the construction plan to fulfill your project needs right through design, fabrication and construction.

Choosing the appropriate delivery method has its benefits:

- Most cost-effective approach
- Achieve your schedule and occupancy goals
- Best use of your internal project management staff

Kavuta Contractors Ltd can build your facility using any of the following delivery types:

- Design/Build
- Engineer-Procure- Construct (EPC)
- Integrated Project Delivery
- Construction Management
- General Contracting
- Building Information Modeling (BIM)

BUSINESS APPROACH

Our years of experience, innovation, and exceptional people differentiate our approach to delivering integrated solutions in a diverse and changing market.

Since its establishment, integral to the company's business strategy has always been its commitment to "structured Innovation". The word "structured" expresses the company's ability to deliver products and services according to a tested method. "Innovation" reflects the important attribute of meeting challenges with effective engineered solutions.

It is important to emphasize the existence of our integrated quality management system that underpins every aspect of operation and also empowers employees to live its corporate values.

OUR COST-EFFECTIVE STRATEGY

Our strategy to increase productivity and minimize cost can be summarized as follows:

- Good planning
- Properly organized work
- Continuous supervision
- Efficient scheduling of material & Equipment
- Minimizing rework with timely quality control
- Well trained workers and managers
- Preventing accidents through safety

VALUES

Kavuta Contractors Ltd strives to live by its core values of:

- People
- Excellence
- Transformation
- Customer Focus
- Innovation
- Integrity and Performance

PROJECT INVOLVEMENT

Kavuta Contractors Ltd has crafted a primary team consisting of highly qualified individuals with a large collective skills capacity to properly oversee multi disciplinary projects as well as general buildings, housing and property development projects. This enables us to follow a strong integrated approach in order to ensure quality outcomes. Furthermore, through the grasp of our integrated primary team we work in association with architects, quantity surveyors, civil and structural engineers, project managers and other specialists.
